- **The right to vote** is one of the most cherished rights of citizenship in the U.S. If people with disabilities voted at the same rate as people without disabilities, there would be more than three million people with disabilities voting.

Are you a person with a disability who has thought about voting but weren't sure how to register? Do you want to know more about voting requirements in Georgia? This **free, two-hour training** is open to anyone who is interested in learning more about their right to vote, the steps needed to register to vote, as well as the resources and options available for voting.

- **RSVP** to Ilias Savakis at isavakis@thegao.org, (404) 885-1234, or (800) 537-2329 with the number of people attending and to request accommodations by Wednesday, June 21, 2017.
